GIA NATURAL DIAMOND ORIGIN REPORT

March 09, 2026

GIA Report Number 1545679938

Shape and Cutting Style Round Brilliant

Measurements 15.65 - 15.75 x 9.88 mm

GRADING RESULTS

Carat Weight 15.01 carat

Color Grade D

Clarity Grade VVS1

Cut Grade Excellent

ADDITIONAL GRADING INFORMATION

Polish Excellent

Symmetry Excellent

Fluorescence None

Inscription(s): GIA 1545679938

Comments: Clarity grade is based on internal graining that is not shown.

ORIGIN RESULTS

Country of Origin ♦ Lesotho

DIAMOND TYPE CLASSIFICATION FOR GIA DIAMOND ORIGIN REPORT #1545679938

Scientists classify diamonds into two main "types" - type I and type II - based on the presence or absence of nitrogen which can replace carbon atoms in a diamond's atomic structure. These two diamond types can be distinguished on the basis of differences in their chemical and physical properties. Type II diamonds contain little if any nitrogen and they are subdivided into two groups (IIa and IIb) both of which are quite rare (less than 2% of all gem diamonds).

According to the records of the GIA Laboratory, the 15.01 carat Round Brilliant diamond described in GIA Diamond Origin Report #1545679938 has been determined to be a **type IIa** diamond. Type IIa diamonds are the most chemically pure type of diamond and often have exceptional optical transparency. Type IIa diamonds were first identified as originating from India (particularly from the Golconda region) but have since been recovered in all major diamond-producing regions of the world.

Among famous gem diamonds, the 530.20 carat Cullinan I and the 105.60 carat Koh-i-noor are examples of type IIa.

The information specific to the article described in this document ("Information") is a part of the GIA Report referenced herein (the "Report") as if such Information was included in such Report. The Information was obtained using the techniques and equipment used by GIA at the time of examination. Neither the Information nor the Report is a guarantee or valuation. For additional information and important limitations and disclaimers, please see GIA.edu/terms or call +1 800 421 7250 or +1 760 603 4500. The limitations and disclaimers on the Report and in the client agreement with GIA governing the Report apply to the Information. By requesting GIA to provide this Information, you agree that you will not provide it to any person or entity without also providing the Report (or a copy of the Report).
